DOMINION BUREAU OF STATISTICS - CANADA
DEMOGRAPHY BRANCH

(Issued February 24th, 1930)

Dominion Statistician: R.H. Coats, B.A., F.S.S. (Hon.), F. R. S. C.
Chief, Demography Branch: E.S. Macphail

The Dominion Bureau of Statistics issues to-day the number of registrations of births, deaths and marriages during the month of January, 1930 in those cities of Canada which had a population of 10,000 inhabitants or over at the last Census. Stillbirths are registered both as births and deaths, but form only a small proportion of the total.

These figures are based on summary monthly reports of registrations furnished either by the Provincial Departments charged with this work or by city Registration Offices with the approval of the Provincial Departments.

Except where otherwise specified, the registrations include all births, deaths and marriages which occurred in a given city. The value of this monthly summary of registrations, which it is hoped to continue, will lie mainly in the index it gives of the movement of vital statistics from month to month.

REGISTRATIONS OF BIRTHS, DEATHS AND MARRIAGES, FEBRUARY, 1930.

The Dominion Bureau of Statistics issues to-day the number of registrations of births, deaths and marriages during the month of February, 1930 in cities of Canada which had a population of 10,000 inhabitants or over at the last Census. Stillbirths are registered both as births and deaths, but form only a small proportion of the total.

These figures are based on summary monthly reports of registrations furnished either by the Provincial Departments charged with this work or by city Registration Offices with the approval of the Provincial Departments.

Except where otherwise specified, the registrations include all births, deaths and marriages which occurred in a given city.

As compared with January, births registered in February in the cities listed showed a decline of 2 per cent. In the Maritime Provinces there was an increase of 3 per cent, but registrations were fewer in Quebec, Ontario, the Prairie Provinces and British Columbia, the reductions being 2 per cent, $1\frac{1}{2}$ percent, 1 per cent and 7 per cent respectively.

Deaths registered in February in these cities were 7 per cent less than in January. The reduction amounted to 19 per cent in the Maritime Provinces, 10 per cent in Quebec, 1 per cent in Ontario, 7 per cent in the Prairie Provinces and 14 per cent in British Columbia.

Marriage registrations in the cities in February showed $9\frac{1}{2}$ per cent less than in January. There was a decline of 14 per cent in the Maritime Provinces, 20 per cent in Quebec, 13 per cent in the Prairie Provinces and 12 per cent in British Columbia. The cities of Ontario recorded a very slight gain in the number of marriages.

REGISTRATIONS OF BIRTHS, DEATHS AND MARRIAGES, MARCH, 1930.

The Dominion Bureau of Statistics issues to-day the number of registrations of births, deaths and marriages during the month of March, 1930 in cities with a population of 10,000 at the last Census. Stillbirths are registered both as births and deaths.

These figures are based on monthly reports furnished either by the Provincial Departments or by city Registration Offices.

Except where otherwise specified, the registrations include all births, deaths and marriages which occurred in a given city.

As compared with February, births registered in March in the cities listed showed an increase of 13 per cent. In the Maritime Provinces the increase was 15 per cent, in Quebec 16 per cent, in Ontario 11 per cent as also in the Prairie Provinces, and in British Columbia 7 per cent.

Deaths registered in March in these cities numbered 12 per cent more than in February. The increase amounted to 43 per cent in the Maritime Provinces, 7 per cent in Quebec, 13 per cent in Ontario, 10 per cent in the Prairie Provinces and 8 per cent in British Columbia.

The slightness of the decline shown by the number of marriages registered in March, from the February registrations, in spite of the incidence of Lent in that month, indicates that a large proportion of the marriages registered in each month took place in the preceding month. For Canada as a whole the decline from February was 5 per cent. The Maritime Provinces showed exactly the same number of marriages registered in each month; in Quebec there was a decrease of between one and two per cent; in Ontario 4 per cent; in the Prairie Provinces 12 per cent and in British Columbia $\frac{1}{2}$ per cent.

JANUARY, 1942

The Dominion Bureau of Statistics issues to-day the number of registrations of births, deaths and marriages during the month of January 1942, in the cities, towns and villages of Canada having a population of 10,000 and over.

This report is compiled from information submitted to the Bureau through the courtesy of the Provincial Divisions of Vital Statistics and the local registrars, and provides the current figures as an index of the incidence of births, deaths and marriages throughout the Dominion of Canada. It is nothing more than a count of the registrations filed during the month.

Births registered in these cities, towns and villages in January numbered 9,401, deaths 5,338 and marriages 4,432 as compared with 8,309 births, 5,493 deaths and 3,338 marriages in January last year, showing increases of 13 per cent in births and 33 per cent in marriages and a decrease of 3 per cent in deaths.

Note: For cities in the Province of Quebec the figures represent the returns on hand from individual collectors at a given date, and are to be used only for comparison with previous months.

Montreal Island includes the cities of Lachine, Montreal, Outremont, Verdun and Westmount.

Figures shown in brackets are preliminary figures of population taken from the Census of 1941.

ENREGISTREMENT DES NAISSANCES, DÉCÈS ET MARIAGES

JANVIER, 1942

Le Bureau Fédéral de la Statistique publie aujourd'hui le nombre de naissances, décès et mariages enregistrés en janvier 1942 dans les cités, villes et villages du Canada d'une population de 10,000 et plus.

Ce rapport est compilé d'après les renseignements fournis au Bureau par les divisions provinciales des statistiques vitales et les registrateurs locaux. Il donne les chiffres courants comme un indice d'incidence des naissances, des décès et des mariages dans tout le Dominion du Canada. C'est tout au plus un dénombrement des enregistrements du mois.

Les naissances enregistrées dans ces cités, villes et villages en janvier s'établissent à 9,401, les décès, à 5,338 et les mariages à 4,432 comparativement à 8,309 naissances, 5,493 décès et 3,338 mariages en janvier l'an dernier, ce qui constitue des augmentations de 13 pour cent dans les naissances et de 33 pour cent dans les mariages et une diminution de 3 pour cent dans les décès.

Nota: Pour ce qui est des villes de la province de Québec, les chiffres reposent sur les relevés à une certaine date faits par des registrateurs individuels et ne doivent servir que dans les comparaisons avec les mois antérieurs.

L'île de Montréal comprend les villes de Lachine, Montréal, Outremont, Verdun et Westmount.

Les chiffres entre parenthèses sont des chiffres préliminaires sur la population puisés au recensement de 1941

REGISTRATION OF BIRTHS, DEATHS AND MARRIAGES

ENREGISTREMENT DES NAISSANCES, DÉCÈS ET MARIAGES

May, 1942

Mai, 1942

The Dominion Bureau of Statistics issues to-day the number of registrations of births, deaths and marriages during the month of May 1942, in the cities, towns and villages of Canada having a population of 10,000 and over.

This report is compiled from information submitted to the Bureau through the courtesy of the Provincial Divisions of Vital Statistics and the local registrars, and provides the current figures as an index of the incidence of births, deaths and marriages throughout the Dominion of Canada. It is nothing more than a count of the registrations filed during the month.

Births registered in these cities, towns and villages in May numbered 10,510, deaths 4,503 and marriages 6,550 as compared with 9,425 births, 4,538 deaths and 5,058 marriages in May last year, showing increases of 12 per cent in births, 29 per cent in marriages and a decrease of 1 per cent in deaths.

Note: For cities in the Province of Quebec the figures represent the returns on hand from individual collectors at a given date, and are to be used only for comparison with previous months.

Montreal Island includes the cities of Lachine, Montreal, Outremont, Verdun and Westmount.

Figures shown in brackets are preliminary figures of population taken from the Census of 1941.

Le Bureau Fédéral de la Statistique publie aujourd'hui le nombre de naissances, décès et mariages enregistrés en mai 1942 dans les cités, villes et villages du Canada d'une population de 10,000 et plus.

Ce rapport est compilé d'après les renseignements fournis au Bureau par les divisions provinciales des statistiques vitales et les registrateurs locaux. Il donne les chiffres courants comme un indice d'incidence des naissances, des décès et des mariages dans tout le Dominion du Canada. C'est tout au plus un dénombrement des enregistrements du mois.

Les naissances enregistrées dans ces cités, villes et villages en mai s'établissent à 10,510, les décès, à 4,503 et les mariages à 6,550 comparativement à 9,425 naissances, 4,538 décès et 5,058 mariages en mai l'an dernier, ce qui constitue des augmentations de 12 pour cent dans les naissances, et 29 pour cent dans les mariages et une diminution de 1 pour cent dans les décès.

Nota: Pour ce qui est des villes de la province de Québec, les chiffres reposent sur les relevés à une certaine date, faits par des registrateurs individuels et ne doivent servir que dans les comparaisons avec les mois antérieurs.

L'île de Montréal comprend les villes de Lachine, Montréal, Outremont, Verdun et Westmount.

Les chiffres entre parenthèses sont des chiffres préliminaires sur la population puisés au recensement de 1941.

REGISTRATION OF BIRTHS, DEATHS AND MARRIAGES

December, 1948

The Dominion Bureau of Statistics issued to-day the number of registrations of births, deaths and marriages during the month of December, 1948, in the cities, towns and village of Canada having a population of 10,000 and over.

This report is compiled from information submitted to the Bureau through the courtesy of the Provincial Divisions of Vital Statistics and the local registrars, and provides the current figures as an index of the incidence of births, deaths and marriages throughout the Dominion of Canada. It is nothing more than a count of the registrations filed during the month.

Births registered in these cities, towns and village in December numbered 14,974, deaths 5,851 and marriages 4,761 as compared with 13,322 births, 5,654 deaths and 4,627 marriages in December last year, showing increases of 12, 3 and 3 per cent respectively for births, deaths and marriages.

Note: For cities in the Province of Quebec the figures represent the returns on hand from individual collectors at a given date, and are to be used only for comparison with previous months.

Montreal Island includes the cities of Lachine, Montreal, Outremont, Verdun and Westmount.

Figures shown in brackets are final figures of population taken from the Census of 1946 for the Prairie Provinces and 1941 for the remaining provinces.

ENREGISTREMENT DES NAISSANCES, DÉCÈS ET MARIAGES

Décembre, 1948

Le Bureau fédéral de la Statistique publie aujourd'hui le nombre de naissances, décès et mariages enregistrés en décembre 1948, dans les cités, villes et village du Canada d'une population de 10,000 et plus.

Ce rapport est compilé d'après les renseignements fournis au Bureau par les divisions provinciales des statistiques vitales et les registrateurs locaux. Il donne les chiffres courants comme un indice d'incidence des naissances, des décès et des mariages dans tout le Dominion du Canada. C'est tout au plus un dénombrement des enregistrements du mois.

Les naissances enregistrées dans ces cités, villes et village en décembre s'établissent à 14,974, les décès à 5,851 et les mariages à 4,761 comparativement à 13,322 naissances, 5,654 décès et 4,627 mariages en décembre l'an dernier, ce qui constitue des augmentations de 12, 3 et 3 pour cent respectivement dans les naissances, les décès et les mariages.

Note: Pour ce qui est des villes de la province de Québec, les chiffres reposent sur les relevés à une certaine date, faits par des registrateurs individuels et ne doivent servir que dans les comparaisons avec les mois antérieurs.

L'île de Montréal comprend les villes de Lachine, Montréal, Outremont, Verdun et Westmount.

Les chiffres entre parenthèses sont les chiffres finals sur la population, puisés au recensement de 1946 pour les provinces des prairies et 1941 pour les autres provinces.
